Inspections required: Stake out • Belly • Ditch • Deck • Electrical / Final

Fee \$300.00 includes plan review

Building Inspector Approval \_\_\_\_\_ Date \_\_\_\_\_

Permit \_\_\_\_\_

### **POOL INSPECTIONS**

1. **Belly Steel and Pool Placement Inspection** – All pools, steel and shell shall be designed and sealed by a Registered State of Texas Design Professional.
2. **Deck Steel, Electrical Bond, Electrical Underground and Plumbing** – All electrical systems must comply with 2008 NEC Sec 680 and related sections. Before any concrete is placed for the pool deck, the placement of steel and the electrical bond shall be inspected and approved. All electrical wiring and conduit buried in the ground must be inspected prior to covering with dirt. All pool plumbing shall be subject to a water test.
3. **P-Trap and Gas Line** – All pools that have City sewer provided on the property must have a P-trap. A permanent drain line must be run from the pool pump to the P-trap to allow for the drainage of the pool. All pools that have City sewer provided on the property require a P-trap and a permanent drain line (backwash line). No portion of the P-trap or backwash line may be covered until the inspection has been approved. The gas line must have an air pressure gauge installed to verify pressure. One-hundred (100) pound pressure gauges will not be accepted. Poly gas lines must be buried at least eighteen inches (18") below the ground with a copper tracer wire not less than 18 gauge
4. **Pre-Plaster Inspection** – before any water is placed in the pool, the permanent fence shall be installed, inspected and approved.
5. **Pool Final** – All pool work must be completed. Pool construction shall comply with Sec. 3109 of the 2009 IBC. Electrical systems must comply with Sec 680 and related sections of 2008 NEC.

### **FENCE REQUIREMENTS**

1. Be a minimum of 48 inches above grade measured on the side of the barrier that faces away from the swimming pool. Maximum vertical clearance between grade and the bottom of the barrier shall be 2 inches.
2. Have gates that shall swing outward away from the pool and shall be self closing and self latching.
3. Have gate latches installed on the outside of the gate a minimum height of 54 inches and 48 inches on the inside of the gate.
4. Have no openings larger than 4 inches.

### **OTHER REQUIREMENTS**

1. Pools shall not drain onto neighbor's property or cause a public nuisance.
2. An approved final inspection shall be obtained before filling the pool.

### **RE-INSPECTION FEES**

A re-inspection fee of \$75.00 may be assessed for any of the following reasons.

1. Inspection called for is not ready;
2. City approved plans and permit not on the job site;
3. The gate is locked or the work is otherwise not accessible for inspection;
4. The pool or excavated area is not protected by a temporary or permanent fence completely surrounding the pool or excavation;
5. An inspection is disapproved twice for the same item.
